

SB 1581 Just say “no” to removing sunsets

Testimony for Senate Finance and Revenue

Sunsets require the legislature to review the value of our tax abatement programs, a process that should be encouraged whether the goals are to benefit the people or the businesses of the state.

The legislature affirmed the importance of sunsets and their review in providing LRO with an extra staff person to review sunset tax credits.

Please don't pass SB 1581.

Thank you for your consideration.
